

Veterinary Lecturer, Lecturer in Farm Animal Medicine and Clinical Skills - School of Veterinary Medicine – Grade - Veterinary Lecturer

Job Description

Purpose

You will contribute to the course development, delivery and management of undergraduate and postgraduate education for students enrolled in the School of Veterinary Medicine with a focus on the topic of farm animal medicine and clinical skills. You will work closely with the School of Veterinary Medicine's academic and digital development team to create innovative and accessible learning provision to UG and PG learners, supervise and support undergraduate and postgraduate research, and contribute to the wider School and University activities.

Duties

1. Promote the advancement of learning and teaching, student experience and success, quality assurance and enhancement including monitoring and evaluation of outcomes, to ensure high standards are maintained and requirements of all relevant regulatory bodies are met.
2. Design and develop effective and inclusive learning materials and assessments to align with programme and module descriptors.
3. Contribute to the School of Veterinary Medicine's academic and research objectives through scholarly activities, knowledge transfer and research outputs.
4. Provide academic and pastoral support to undergraduate and postgraduate students.
5. Teach to a high-quality standard using engaging and inclusive teaching, learning and assessment methods and technologies, including via VLE and other digital media.
6. Contribute to the assessment process for students including enhancement, setting, invigilation, marking and moderation of the student work, individually or collectively as part of a programme team in accordance with University and School quality assurance procedures
7. Provide high quality, timely, formative and summative feedback to students
8. Ensure that learning content is appropriate, up to date and comprehensive to enable successful achievement of agreed learning outcomes.
9. To contribute to the further development of the School of Veterinary Medicine course provision, as well as undertaking strategic development responsibilities relating to farm animal veterinary education
10. To undertake administrative duties relevant to module leadership (administer course registers, assessment records, learning programmes and other records) and personal tutoring including supporting student retention, and engagement, identifying and assisting struggling students.
11. To support processes to enhance the student voice and integrate student wellbeing into course delivery
12. Engage with the recruitment of students onto courses and provide appropriate advice on progression and career opportunities. To participate in the student admission process: open days; recruitment; clearing; and selection events for all campus sites.
13. Contribute to development and delivery of CPD, PPD or PG degree courses.
14. To develop and consolidate contacts with industry/employers, university partners and other external organisations, particularly to maximise opportunities for interprofessional

interactions and education including research, outreach and income generating activities

15. Carry out other duties commensurate with the level of the post as outlined by the Head of School.
